

YouSeeMore™

Web Site Portal Features and Options

YouSeeMore gives your users a Web portal with access to your catalog and more. Use YouSeeMore with any TLC automation system.

Standard Package

- **Community Calendar**

Use YouSeeMore's community calendar to announce library activities. Patrons can subscribe to the calendar for automatic email notifications.

- **Links recommended by Library**

Authorized staff can easily update Ready Reference links to meet your community's needs.

- **Hot Titles Lists**

Select from dozens of generic title lists. The lists, maintained for you by TLC, include award winners, best-sellers, etc. You can also create and maintain lists specific to your patrons' needs and interests.

- **News & Weather**

Enhance the topical appeal of your Web site with specific or general news feeds, as well as regional weather.

- **Customized OPAC Features**

TLC will include your preferences in graphics, color schemes, setting preferences, and compatibility with your city, county, or institutional Web site.

- **Customized Web Content**

TLC will integrate any content you've already created with YouSeeMore pages and site structure. Authorized library staff can maintain sets of links to sites important to your community.

Optional Features

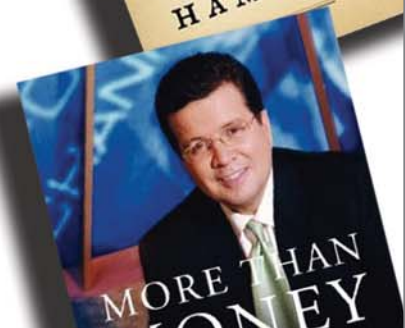

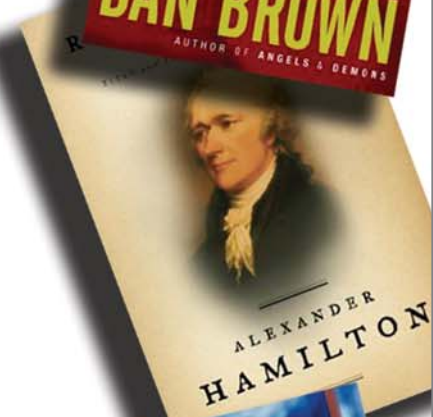

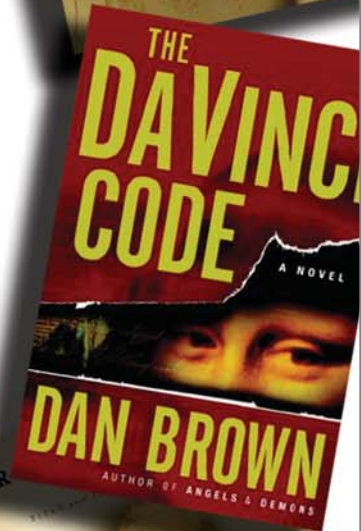

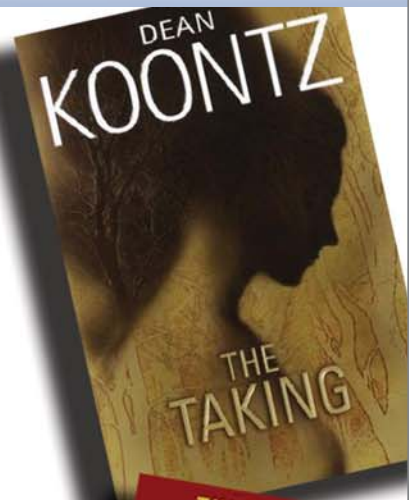

These options enrich your patrons' OPAC experience. The following features may be bundled with YouSeeMore, or purchased independently in the form of annual subscriptions:
